PET TRAVEL CHECKLIST

- Collar/leash Any training tools you normally use (collars are removed once dogs have been integrated and remain off for the duration of their stay for safety reasons.)
- While we supply raised beds, dishes, treats, and toys we recommend you pack anything that will ease your pets' transition into the kennel. (Favorite bed or blanket is a comfort to your dog at bedtime and they settle in quicker)
- Your dog's food in a sealed container with his/her name on it & amounts fed per day.
 - Please bring enough to cover their stay, plus a little extra in case you are delayed on your travels
- Any medications with concise instructions as to administering
